MRMCM-2010

National Conference on “MEDICAL RESPONSE TO MASS CASUALTY MANAGEMENT 2010”

6th and 7th of May, 2010

Venue:

'DRDO Bhavan, New Delhi-110001

Invitation

Dear friends,

We cordially invite you to conference on “MEDICAL RESPONSE TO MASS CASUALTY MANAGEMENT.” This conference is the first of its kind and is being organized by JPN Apex Trauma Centre, All India Institute of Medical Sciences in association with National Disaster Management Authority of India. The venue of this conference is '**DRDO Bhavan, New Delhi**' and will be held on 6th and 7th of May.

Our vision is 'to build a safe and disaster-resilient India by developing a holistic, proactive, multi-disaster and technology-driven strategy for Disaster Management'. To achieve this end we need to develop a culture of prevention, mitigation and preparedness to generate a prompt and efficient response at the time of disasters. The entire process will centre-stage the community and will require participation and cooperation of all government agencies and non governmental organizations.

This requires that all concerned including the medical personnel to have a high level of training in skills that would enable them to maintain the level of preparedness to meet any disaster. Our endeavor is to train participants in various aspects of disaster management such as pre-hospital care, field triage, 'quick response team' concept, incident command and in-hospital response in terms of triage, surge capacity and management issues. By this we hope to ensure that information percolates both in breadth across the various organizations and in depth to the basic care providers at the grass root level.

We are pleased to present you our distinguished panel of speakers who will share their valuable insight and experience in the field of disaster management. The conference will be an interactive one and the participants will be able to share their unique perspectives and discuss their queries and everyone involved may be enlightened by the whole exercise. The ideas shared will make important contributions in further refining the disaster management policies. The entire conference would be a model of the cooperation expected at all levels of decision making and execution which is the very essence of disaster management.

It is hoped that you would grace the occasion by your participation and contribute to an issue of great national importance. We warm heartedly welcome you and look forward for a successful conference.

Prof. MC Misra,

Organizing Chairman & Chief,
Apex Trauma Center, AIIMS, New Delhi.

Scientific Highlights

Disasters overview

- ★ Natural disasters- earthquakes, flood, cyclones
- ★ Man made disasters- CBRNE
- ★ Mass Casualty Scenarios during festivals

Disaster Triage

Quick response teams and Evacuation

Pre-hospital Care

Surge Capacity

Lessons from military experiences

Care of care providers

Disposal of dead

Hospital medical response

Challenges in conducting disaster research

Communications, Role of public and Community resilience after disasters.

Exhibition of HAZMAT Vehicles and instruments used for Management of CBRNE exposure.

Registration Fee: Rs. 1000/-
