To

**Prof. M.C.Mishra M.S.**

Prof. Incharge of JPN Apex Trauma Centre  
AIIMS, New Delhi

Dear Sir,

This letter is to convey my heartiest congratulation for bringing about a facility I am yet to see in India in my 40 years of practice.

On the night of 17<sup>th</sup> July I was faced with a 58 year old patient who had sustained intraabdominal injury at home and came to my nursing home Friends Medical Center (Not knowing that we are closed for renovation).

He was in severe shock with a thin pulse and unrecordable blood pressure. His lower abdomen was bloated and he was screaming in pain.

In my office I put up a drip and gave Inj. Tremadol. When I could record his B.P. I decided to shift him to your center by ambulance.

As soon as we arrived at your emergency – the entire staff engaged themselves in managing him. Within less than an hour he had his blood examined, an ultrasound of the abdomen and a CT Scan. A diagnosis of Intraoperatoneal rupture of urinary bladder was made and a Senior Surgeon was called.

By 3 am (i.e. within an hour of arrival) he was wheeled into the operation theater and operated.

After a successful surgery he was shifted to I.C.U.

In my 40 years of practice in Delhi I have not seen this kind of prompt and efficient service in any Hospital Casualty, Public or Private.

I have followed up the entire management of this patient who has now recovered fully and going home in a day or two. In the I.C.U. he remained on respiratory support for 6 days and that too has been exemplary.

It is heartening to see that you are keeping such high standard and efficient service, in the capital of India. I am also aware of load you are taking 200-250 patients daily.

My Hats off to you and your entire team of doctors, Nurses, Technicians and paramedics.

I hope the Government of the day will give you all support – financial and other requirements.

Once again my heartfelt greetings and thanks.

Yours Sincerely,

  
**Dr. P.R.Kucheria**
